# § 433.153 Incentive payments to States and political subdivisions.

- (a) When payments are required. The agency must make an incentive payment to a political subdivision, a legal entity of the subdivision such as a prosecuting or district attorney or a friend of the court, or another State that enforces and collects medical support and payments for the agency.
- (b) Amount and source of payment. The incentive payment must equal 15 percent of the amount collected, and must be made from the Federal share of that amount.
- (c) Payment to two or more jurisdictions. If more than one State or political subdivision is involved in enforcing and collecting support and payments:
- (1) The agency must pay all of the incentive payment to the political subdivision, legal entity of the subdivision, or another State that collected medical support and payments at the request of the agency.
- (2) The political subdivision, legal entity or other State that receives the incentive payment must then divide the incentive payment equally with any other political subdivisions, legal entities, or other States that assisted in the collection, unless an alternative allocation is agreed upon by all jurisdictions involved.

# §433.154 Distribution of collections.

The agency must distribute collections as follows—

- (a) To itself, an amount equal to State Medicaid expenditures for the individual on whose right the collection was based.
- (b) To the Federal Government, the Federal share of the State Medicaid expenditures, minus any incentive payment made in accordance with §433.153.
- (c) To the beneficiary, any remaining amount. This amount must be treated as income or resources under part 435 or part 436 of this subchapter, as appropriate.

# Subpart E—Methodologies for Determining Federal Share of Medicaid Expenditures for Adult Eligibility Group

SOURCE: 78 FR 19942, April 2, 2013, unless otherwise noted.

## § 433.202 Scope.

This subpart sets forth the requirements and procedures that are applicable to support State claims for the increased FMAP specified at §433.10(c)(6) for the medical assistance expenditures for individuals determined eligible as specified in §435.119 of this chapter who meet the definition of newly eligible individual specified in §433.204(a)(1). These procedures will also identify individuals determined eligible as specified in §435.119 of this chapter for whom the State may claim the regular FMAP rate specified at §433.10(b) or the increased FMAP rate specified at 433.10(c)(7) or 8, as applicable.

#### § 433.204 Definitions.

- (a)(1) Newly eligible individual means an individual determined eligible for Medicaid in accordance with the requirements of the adult group described in §435.119 of this chapter, and who, as determined by the State in accordance with the requirements of §433.206, would not have been eligible for Medicaid under the State's eligibility standards and methodologies for the Medicaid State plan, waiver or demonstration programs in effect in the State as of December 1, 2009, for full benefits or for benchmark coverage described in §440.330(a), (b), or (c) of this chapter or benchmark equivalent coverage described in §440.335 of this chapter that has an aggregate actuarial value that is at least actuarially equivalent to benchmark coverage described in §440.330(a), (b), or (c) of this chapter, or would have been eligible but not enrolled (or placed on a waiting list) for such benefits or coverage through a waiver under the plan that had a capped or limited enrollment that was full.
- (2) Full benefits means, for purposes of paragraph (a)(1) of this section, with respect to an adult individual, medical assistance for all services covered

### §433.206

under the State plan under Title XIX of the Act that is not less in amount, duration, or scope, or is determined by the Secretary to be substantially equivalent, to the medical assistance available for an individual described in section 1902(a)(10)(A)(i) of the Act.

- (3) For purposes of establishing under paragraphs (a)(1) and (2) of this section whether an individual would not have been eligible for full benefits, benchmark coverage, or benchmark equivalent coverage under a waiver or demonstration program in effect on December 1, 2009, the State must provide CMS with its analysis, in accordance with guidance issued by CMS, about whether the benefits available under such waiver or demonstration constituted full benefits, benchmark coverage, benchmark equivalent coverage. CMS will review such analysis and confirm the applicable FMAP. Individuals for whom such benefits or coverage would have been available under such waiver or demonstration are not newly eligible individuals.
- (b)(1) Expansion State means a State that, as of March 23, 2010, offered health benefits coverage statewide to parents and nonpregnant, childless adults whose income is at least 100 percent of the Federal Poverty Level. A State that offers health benefits coverage to only parents or only nonpregnant childless adults described in the preceding sentence will not be considered to be an expansion State. Such health benefits coverage must:
- (i) Have included inpatient hospital services;
- (ii) Not have been dependent on access to employer coverage, employer contribution, or employment; and
- (iii) Not have been limited to premium assistance, hospital-only benefits, a high deductible health plan, or benefits under a demonstration program authorized under section 1938 of the Act.
- (2) For purposes of paragraph (b)(1) of this section and for \$433.10(c)(8), a nonpregnant childless adult means an individual who is not eligible based on pregnancy and does not meet the definition of a caretaker relative in \$435.4 of this chapter.

#### § 433.206 Threshold methodology.

- (a) Overview. Effective January 1, 2014, States must apply the threshold methodology described in this paragraph for purposes of determining the appropriate claiming for the Federal share of expenditures at the applicable FMAP rates described in §433.10(b) and (c) for medical assistance provided with respect to individuals who have been determined eligible for the Medicaid program under §435.119 of this chapter. Subject to the provisions of this paragraph, States must apply the CMS-approved State specific threshold methodology to determine and distinguish such individuals as newly or not newly eligible individuals in accorddefinition ance with the §433.204(a)(1), and in accordance with States' Medicaid eligibility criteria as in effect on December 1, 2009 and to attribute their associated medical expenditures with the appropriate FMAP. The threshold methodology must not be applied by States for the purpose of determining the applicable FMAP for individuals under any other eligibility category other than §435.119 of this chapter.
- (b) General principles. The threshold methodology should:
- (1) Not impact the timing or approval of an individual's eligibility for Medicaid.
- (2) Not be biased in such a manner as to inappropriately establish the numbers of, or medical assistance expenditures for, individuals determined to be newly or not newly eligible.
- (3) Provide a valid and accurate accounting of individuals who would have been eligible in accordance with the December 1, 2009 eligibility standards and applicable eligibility categories for the benefits described in §433.204(a)(1), and subject to paragraphs (d), (e), and (g) of this section, by incorporating simplified assessments of resources, enrollment cap requirements in place at that time, and other special circumstances as approved by CMS, respectively.
- (4) Operate efficiently, without further review once an individual has been determined not to be newly eligible based on the December 1, 2009 standards for any eligibility category.
